

## Adventure ISO Revision - we guide you through the jungle of Standards

The Revision of ISO 9001, ISO 14001 and ISO 45001 (formerly OHSAS 18001 Occupational Health and Safety Assessment Series) opens up new opportunities for the design of your management system: a clearer alignment to corporate strategy, handling of risks and opportunities, advancement of process focus and an intensified look at performance and effectiveness, just to name a few aspects.

This Revision is aimed at adapting the Standard to the changed conditions of a business world that is increasingly becoming dynamic and complex and at the same time it is making the Standard user friendlier. Simultaneous use of several management standards (Integrated Management Systems) is to be made easier. For this purpose, the structure of the Standard has been changed. Now it is adjusted to the harmonized model that will be used for all management system standards in future.

We would like to inform you of ways to successfully design the transition to the new tasks put by ISO 9001:2015 and ISO 14001:2015.

### Dear Customers!

Currently there are some exciting ISO-developments in the field of management systems!

To inform you right in time about the requirements that are approaching you, we summarized the most important changes expected from the creation of ISO 45001 (formerly OHSAS 18001).

Futhermore, we provide information on the revision of ISO 9001:2015 and explain key concepts like Competence, Changes and Awareness more profoundly.

We created [online courses](#) regarding the new ISO 9001:2015 to support you wherever you are. Beyond that, we offer a [seminar](#) held in English language in Vienna next year.

Enjoy reading and best regards,

Melanie Scheiber  
Head of Marketing

### Overview

- Adventure ISO Revision - we guide you through the jungle of Standards
- ISO 9001 Revision explained in simple terms
- ISO 45001 – Current Status
- Award for Končar - 20 years ISO 9001 certified
- Quality Austria is now accredited for ISO 22301
- EOQ Awards
- Visit of Austrian ambassador at **qualityaustria** Polska
- Training and Event Tips
- Downloads

### Quality Austria is now accredited for ISO 22301

We are glad to inform you that Quality Austria has achieved accreditation for ISO 22301. Thanks to the systematic management approach, BCM is to prevent interruption of operations and/or interruption of delivery capability within an organization. If this bad case occurs, after all, BCM is to help to rapidly regain operating/delivery capability systematically.
